SCAN FOR THE FULL PORTFOLIO

I build small sites that have to do a job — answer a question, take a booking, or replace a messy manual process. I work across the page, the enquiry path and the small backend when the job needs one. Started in web development in August 2025 and have shipped live sites for Malaysian businesses since.

01 / EXPERIENCE

Web Developer

AUG 2025 — PRESENT

QuikCue · Malaysia

- Build client websites from structure to launch: responsive layout, typography, content and the small interactions that make a page work on a phone.
- Work on the enquiry path, not only the page — forms with validation, clear calls to action and WhatsApp handoffs that reach a person.
- Ship and maintain static sites on Cloudflare Pages, including custom domains and small server-side endpoints when a page needs one.
- Keep the handover usable: semantic HTML, content that reads without JavaScript, keyboard access and reduced-motion support.

02 / SELECTED WORK

2025 — 26

Stainbusters

DESIGN + BUILD / 2025

Cleaning-quote site. A booking-first homepage, service and pricing pages, and a quote form that hands off to WhatsApp.

AutoPro Redline

DESIGN + BUILD / 2025

Workshop site that starts from the customer's symptom, then routes to a diagnosis and a booking instead of a generic service list.

JomVibe

FRONT END / 2025

Learning platform with two tracks, lessons, quizzes and a progress store. Built with Next.js, React and TypeScript.

Rembulan Digital

DESIGN + BUILD / 2025

Bilingual service site: a five-part explanation of where sales leak, clear pricing, product pages and a qualifying form prototype.

03 / SKILLS

FRONT END

HTML, CSS, JavaScript, TypeScript, React, Next.js

BUILD & SHIP

Node.js, forms and validation, Cloudflare Pages, Git

PRACTICE

Responsive layout, accessible markup, performance, content structure, handover
